SSMGC

OUR CORE BUSINESS

CONSTRUCTION COMPANY

SSMGC is a construction company specializing in civil, structural & MEP works

These are our core services, where we bring experience, quality and commitment to every project

CIVIL CONSTRUCTION

Site Development & Earth works
Concrete Works
Infrastructure & Utillities
Roads, Pavment & External Works

STRUCTURAL WORKS

Steel Structures
RC Structures
Industrial & Commercial Buildings
Structural Retrofit & Modification

MEP WORKS

Mechanical [HVAC]
Electrical
Plumbing & Fire Fighting
Testing & Commisioning

OTHER SERVICES

Support services to add value to your project

- Equipment Rental and Leasing
- Man Power Supply
- Food and Accomodation Services
- Tank and Vessel Cleaning
- Procurement & Supply Chain Management

شركة سها سعيد هرزوق الحربي للمقاولات العامة
SSMGC

CONSTRUCTION & ENGINEERING EXPERTISE

CIVIL WORKS

- Residential
- Commercial
- Infrastructure
- Foundations

MECHANICAL WORKS

- Residential
- Commercial
- Infrastructure
- Foundations

MEP PROJECTS

- Mechanical
- Electrical
- Plumbing

PREFABRICATED BUILDINGS

- Modular offices
- Camps
- Industrial facilitie

شركة سها سعيد هرزوق الحربي للمقاولات العامة

EPC CONTRACTING
EXPERIENCE & CAPABILITY

SSMGC provides integrated Engineering, Procurement and Construction support for industrial projects, coordinating multidisciplinary engineering, material sourcing, site execution, testing and commissioning through a single project delivery approach

ENGINEERING
Design & coordination

PROCUREMENT
Vendor & material control

CONSTRUCTION
Site execution

COMMISSIONING
Testing & handover

ENGINEERING 01

- Design basis & technical coordination
- Civil / structural engineering
- Mechanical & piping engineering
- MEP integration & constructability

PROCUREMENT 02

- Material & equipment sourcing
- Vendor coordination & technical review
- Expediting and logistics
- Quality documentation & traceability

CONSTRUCTION 03

- Civil, structural & foundation works
- Mechanical, piping & equipment installation
- Electrical & MEP works
- Site supervision, QA/QC & HSE

TESTING & HANDOVER 04

- Inspection & testing coordination
- Hydrotesting / system checks
- Pre-commissioning & commissioning support
- As-built dossiers & project handover

FROM CONCEPT TO COMMISSIONING: Integrated delivery across industrial, civil, structural, mechanical and MEP works — with coordinated engineering, procurement, site execution and project handover

FRP / GRP SOLUTIONS

SSMGC provides end-to-end specialized FRP/GRP solutions—from engineering and fabrication to installation, testing, and maintenance—for industrial, water, chemical, and process applications.

VESSELS & PIPING

Storage tanks, process vessels, piping, spools, fittings, flanges, nozzles, and ducting systems.

STRUCTURAL & ACCESS

Gratings, platforms, ladders, handrails, pipe supports, and structural components.

LININGS & PROTECTION

Chemical-resistant tank linings, protective coatings, and corrosion management.

SERVICES & MAINTENANCE

Jointing, tie-ins, leak repairs, tank refurbishment, modifications, and field maintenance

Engineered for superior corrosion resistance, chemical compatibility, and durability under demanding service conditions, our FRP services seamlessly integrate with SSMGC's civil, structural, and MEP capabilities.

WAREHOUSE CONSTRUCTION

SSMGC provides end-to-end turnkey construction, extension, refurbishment, and maintenance for industrial and commercial warehouses, integrating civil, structural, mechanical, and MEP solutions.

CIVIL & SITE WORKS

Excavation, grading, RCC foundations, hardstands, heavy-duty concrete flooring with epoxy coatings, drainage, paving, and external infrastructure.

STRUCTURAL STEEL & CLADDING

Fabrication and erection of structural frames (columns, beams, trusses, mezzanines), insulated sandwich panel roofing/ cladding, flashing, gutters, and waterproofing.

DOORS, ACCESS & ARCHITECTURAL

Rolling shutters, sectional loading-bay doors, canopies, stairways, safety barriers, blockwork, plastering, and finishes.

MEP & MECHANICAL INTEGRATION

Electrical power/lighting, fire-fighting systems, plumbing, HVAC/ventilation, utility piping, and equipment foundations.

SSMGC delivers complete warehouse projects from initial earthworks to final handover with a strict focus on quality, safety, and schedule execution.

WORKFORCE & EQUIPMENT SUPPORT

MANPOWER SUPPLY

Skilled: Engineers, Technicians, Supervisors
Unskilled: General labor, helpers
Reliable, trained, project-ready

EQUIPMENT RENTAL & LEASING

Construction & heavy machinery
Light construction tools, Access & lifting equipment
Landscaping & argicultural equipment
Event & party equipment, Vehicle & transport
Medical equipment, Office & IT equipment
Industrial & utility equipment
Power & electrical equipment
Cleaning equipment, Safety equipment, and
Home-use appliances

COMPLETED PROJECTS

NATURAL GAS PIPELINE PROJECT (ONGOING)

OVERVIEW: Complete design, supply, and installation of a 2" natural gas pipeline connecting the utility network to a boiler system.

SCOPE: P&ID, route design, hydraulic calculations, carbon-steel piping, utility scanning, tie-in works, hydrotesting, pigging, and authority approvals.

KEY SKILLS: Gas Pipeline Design • P&ID & Isometrics • Utility Tie-Ins • Hydrotesting & Piggingprovals.

100,000L FRP STORAGE TANKS & PUMPING SYSTEM (ONGOING)

OVERVIEW: Turnkey installation of 2 × 100,000L FRP vertical storage tanks and transfer pumping system for Mada Gypsum.

SCOPE: RCC foundations, structural frames/canopies, 2"–6" piping, centrifugal pumps, electrical control panels, cabling, testing, and commissioning.

KEY SKILLS: FRP Tanks • Centrifugal Pumps • RCC Foundations • Piping & Electrical Integration

COMPLETED PROJECTS

NWC PROJECT EXPERIENCE

Client: National Water Company (NWC)
Main Contractor: Al Fahad
Subcontractor: SSMGC
Project Description – Drainage Pipeline & Infrastructure Works

SSMGC is executing drainage and underground infrastructure works under Al Fahad for NWC, delivering high-quality, safe, and compliant installation according to project specifications.

SCOPE OF WORK: Pipeline laying, alignment, and drainage pipe installation, Manhole construction, concrete, and civil works, Excavation, backfilling, compaction, and asphalt reinstatement, Pipeline inspection, quality control, and site coordination
